SUMMARY

Information Technology undergraduate (BTech, 2027) with hands-on experience in Machine Learning, Deep Learning, Computer Vision, and Data Analytics. Proficient in Python and Java with strong OOP concepts and Data Structures & Algorithms. Built and deployed three production-grade AI and web applications using Python, TensorFlow, Flask, and Streamlit — all live and accessible online. Skilled in building end-to-end ML pipelines, interactive dashboards, SQL-based data pipelines, and real-time inference systems. Certified by Microsoft and Deloitte Australia in Data Analytics and Data Science.

SKILLS

Programming Languages: Python, Java, SQL
Machine Learning & AI: TensorFlow, Keras, Scikit-learn, Transfer Learning (MobileNetV2, ResNet), Image Classification, Object Detection, Computer Vision
Data Analysis: pandas, NumPy, Feature Engineering, Statistical Analysis, A/B Testing (Welch's t-test), Customer Segmentation, DuckDB
Data Visualization: Matplotlib, Seaborn, Plotly Dash, Streamlit, Tableau, Power BI
Web & Deployment: Flask, Render Cloud, Streamlit Cloud
Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Colab, Microsoft Excel (Advanced), OpenCV

PROJECTS

- Real-Time Face Mask Detection System** | *Python, TensorFlow, Flask, OpenCV, MobileNetV2* [Live Demo](#)
- Built a two-stage deep learning pipeline: ResNet-10 SSD for face detection and MobileNetV2 for mask classification via transfer learning – achieving **99.48% validation accuracy**.
 - Deployed Flask application on Render cloud with real-time webcam inference and JSON predictions; optimized latency by **30%** through hyperparameter tuning.
- Google/Meta Ad Campaign Performance Analytics** | *Python, SQL, DuckDB, Plotly Dash, A/B Testing* [Live App](#)
- Analyzed **1,143 ad-level records** to optimize ROAS, CTR, and CPA; conducted Welch's t-test A/B analysis proving video ads delivered **2.9x higher ROAS** than image ads.
 - Built an interactive Plotly Dash dashboard and automated SQL pipeline using DuckDB for real-time targeting decisions and reporting.
- Advanced Data Visualizer & EDA Platform** | *Python, Streamlit, Plotly, pandas, NumPy* [Live Demo](#)
- Developed a web application supporting dataset upload, automated EDA, correlation heatmaps, pair plots, and multi-format statistical reporting.
 - Reduced analytical turnaround by **~60%** through end-to-end automation of the data exploration pipeline.

VOLUNTEER & LEADERSHIP

- Treasurer – Drishti, Rotaract Club of BPIT** Oct 2023 – Present
- Managed full-cycle budgeting and fund allocation for community outreach events, supporting 50+ active club members; demonstrated financial accountability and stakeholder coordination.
- Sponsorship Head – Cultural Committee, BPIT** 2024 – 2025
- Secured external sponsorships and partnerships for large-scale college cultural events through negotiation, stakeholder coordination, and cross-functional team management.

EDUCATION

Bhagwan Parshuram Institute of Technology <i>BTech, Information Technology – GGSIPU CGPA: 8.2 / 10 (up to Semester 5)</i>	New Delhi, India <i>Aug 2023 – Apr 2027</i>
Govt. Sarvodaya Bal Vidyalyaya <i>CBSE Class XII – 89%</i>	New Delhi, India <i>2021 – 2022</i>
Akash Model School <i>CBSE Class X – 89%</i>	New Delhi, India <i>2019 – 2020</i>

CERTIFICATIONS

Deloitte Australia – Data Analytics Job Simulation | Microsoft – Career Essentials in Data Analysis | Microsoft – Get Started with Data Analytics | GeeksforGeeks – Data Science Certification | Power BI Workshop Certification
